

Corporate Days Out

Laser Tag is the optimal activity for corporate days out, as it can either be a standalone event, or mixed in as part of a larger day or days involving multiple events.

It is suitable for both sexes, and is 100% safe and environmentally friendly, also it can be played almost anywhere, we have our own purpose built venues, but it can also be mobile and come to you.

As the equipment is electronic and there are no projectiles, it can be played both indoors or outside, and the bit that is far superior to paintball, is there is no mess, or pain.

Possible days out are for:

- Client incentive
- Staff motivation
- Product launches
- Team building

Reasons for Team Building include

- Improving communication
- Making the workplace more enjoyable
- Motivating a team
- Getting to know each other
- Getting everyone "onto the same page", including goal setting
- Teaching the team self-regulation strategies
- Helping participants to learn more about themselves (strengths and weaknesses)
- Identifying and utilizing the strengths of team members
- Improving team productivity
- Practicing effective collaboration with team members

The equipment we use is state of the art wireless technology based on the Military M.I.L.E.S system and promotes team bonding, strategy, interaction of team players and many more features, it is 100% safe as unlike Paintball, it has no projectiles, meaning no bruises, and as such is far more popular with the ladies, and the equipment not only is more accurate over greater distances, it also again unlike Paintball, can provide a computerized printout of each game.

At the majority of our sites other activities are also available.
